And What Have You

By BOB CRAIG

If you have not been making it out to the basketball games this season you have been missing something because both the Pipers and the Piperettes have been playing real good ball. Friday night they travel to Anson or an important contest for both teams.

Not only would you enjoy the games but they could use your support. As the district contests get down close to the finish they could use all of the backing that they can get.

The girls are out in front in their loop and the boys are tied with Colorado City after finishing up the first time through. Unless the boys get some help by someone knocking off Colorado City they will have to win all the rest of their games to make it into the playoffs. The girls need the rest of their games too to avoid a tie and a playoff.

The Texas Tech Stage Band will be playing here tonight and will be preceded by the Hamlin Stage Band. This is the type of program that Hamlin needs more of, and we can have them if we will support them.

One of the biggest weaknesses of smaller towns is the lack of fine arts programs and the easiest way to overcome this weakness is through visiting college programs such as this one tonight.

These programs are available, but only if they are supported.

Since my wife was one of those that received a jury summons this past week end, it was brought to our attention that the system is a little weak when it comes to notifying the panel when the session is being called off.

The only call out on the cancellation was apparently a news item on the Stamford Radio Station and this was not very clear. The news item spoke of the panel for a murder trial and of course the summons card does not say what the call is for, so it becomes a little confusing.

It looks like there could be some arrangement made to contact every one by phone either through the local police departments or some other means, if there is not enough time to mail out a second card.

We do not know how many times someone has gone over to Anson only to find out that the case has been called off and some way should be found to avoid this. Most people have to make a number of arrangements in advance to go for jury service and should not be subjected to needless trouble.

The following editorial, entitled, "How Can It Be?" taken from the San Diego Dispatch, is making the rounds. ... That one boy lies rotting from malnutrition and torture in a jungle prison camp in North Vietnam ... and another boy spots and tramples on the flag of this country on the steps of a university of learning?

... That one boy lies sightless in a U. S. Naval Hospital from communist-inflicted face wounds ... and another boy uses a communist flag to drape himself in defiance of the laws of this country?

... That one man of medicine begins his thirtieth straight hour standing over an operating table in pursuit of life for men serving this country ... and another man of medicine implores crowds of young men to refuse to serve their country?

... That one Negro holds the face of his dead white comrade in his arms and cries pitifully in a dirty mud hole in Vietnam ... and another Negro screams with hate against his white brother on the streets of countless American cities?

... That one boy lies in a coffin beneath the ground because he believed in duty to his country ... and another boy lies on a dingy cot giving blood to the enemies of his country?

... That one man of God shields a wounded man from an enemy bayonet with his body and dies ... and another man of God uses his cloth as a shield to preach hate, dissension, and lawlessness?

My God, how can it be?

PAINTING IN PROGRESS — Chris Perrin, front, Library Club member and James Holt come to the aid of the Woman's Forum by helping with the painting of the shelves at Harden Memorial Library Saturday afternoon. More from the high school Library Club plan to help with the project Saturday. Clubwomen, too, have been painting during the week, trying to complete the project this week and get the Library in operation.

MOVING BOOKS — James Knobel, front, C. A. Jenkins, and Tommy Oliver, right, are busy removing books from the shelves of Harden Memorial Library, getting them ready for painting. The Hamlin High School Library Club members also helped dig a ditch in the front of the Library for installation of an electric yard light. Other members plan to work at the local Library Saturday.

Council of Governments Receives \$7,500 Federal Planning Grant

Governor Connally today announced his approval of a State Regional Planning Grant in the amount of \$7,500 to the West Central Texas Council of Governments, a voluntary association of local governments in the 16-county West Central Texas region.

The following counties and cities and other political subdivisions within them compose the membership of the Council: Brown, Callahan, Coleman, Eastland, Fisher, Haskell, Jones, Kent, Knox, Mitchell, Nolan, Runtels, Shackelford, Stephens, Taylor, and Throckmorton.

The Grant will be used as general support for the work program of the Council of

Governments which includes comprehensive planning for the 16-county area, assistance to local governments, and encouragement of intergovernmental coordination.

The West Central Texas Council of Governments is geographically the largest such organization in the State. Its activities are a prime example of the cooperation that is developing between metropolitan counties and neighboring counties that are predominantly rural.

This Grant is from \$250,000 in State funds provided as part of Governor Connally's program to foster metropolitan and rural regional planning agencies. There are now 17 regional planning groups in Texas each composed of representatives of county, city and other political subdivisions.

Stray, Loose Dogs Causing Numerous Complaints Here

The Hamlin Police Department is receiving numerous calls by irate residents because of troublesome dogs in their neighborhoods.

There is a city ordinance against dogs running loose and the department is trying to enforce this by requesting that dogs be penned.

Police Chief Bryan Wasson said Wednesday that dog owners should take care of their pets so that more drastic measures will not have to be taken.

Tech Stage Band To Play Tonight

Texas Tech's Stage Band, which has won both popular and critical acclaim for its jazz interpretations, will present a concert here tonight (Thursday) at 8:15, the final stop of a five-day concert tour in Texas and Oklahoma. Joel T. Leach, percussion instructor in Tech's Department of Music, will direct the 21-member group in the performance.

In presenting a varied program of dance tunes and concert music, the Tech musicians will feature the individual style and phrasing which brought them an invitation to sit in at rehearsals conducted by bandmaster - composer Henry Mancini - preceding the Mancini band's fall concert in Lubbock.

The Tech band placed among the top three at the 1967 Intercollegiate Stage Band Festival in Salt Lake City and also was presented last spring at a campus concert with noted band leader Skitch Henderson.

School Census In Final Week

Hamlin school superintendent, C. F. Cook, reminds that this is the final week for the annual school census.

By Tuesday 59 six-year-olds had been pre-registered, a figure that is lower than normal.

All students who will be six years old by Sept. 1, 1968, should be included in the census. It is important that these children's names be listed with the school so that preliminary plans for the next school term can be made.

Approximately 20 percent of the first grade students are not pre-registered, as a rule, the school said. Most of the children missed are those without older brothers or sisters.

Mr. Cook urges residents who have neighbors with children of this age to call the school with the information or remind the parents to have their child re-enumerated.

Plans Shaping Up For Countywide Police Academy

Plans for the Police Academy for policemen in Stamford, Anson and Hamlin are progressing, according to Hamlin Police Chief Bryan Wasson.

The officers in the three towns will be trained to meet minimum standards set by the Texas Commission on Law Enforcement Officer Standard and Education. A minimum of 140 class hours of instruction was set.

Chief Wasson said that Leo Robertson, FBI agent of Dallas, had been contacted and will teach one week, covering fire arms and offensive and defensive tactics. This will probably be in April or May, he said.

Literary Club Members Present Forum Program Here Monday

Members of the Woman's Literary Club presented the program for the Monday meeting of the Woman's Forum in Harden Memorial Library.

A panel discussion on "Are You Making the Most of Your Mind?" using posters for emphasis, was presented by Mmes. Bob Craig, Richard Minor, A. A. Hackley and W. A. Cassle.

During the business session with Mrs. Jack Vaughan, president, presiding, the group heard reports of the progress being made on the library building.

Mrs. Craig reported that after the contract work on the walls, ceiling and wood-work of the library room was completed, members of the Local Club had started the painting of the shelves on Tuesday. On Saturday, several members of the high school Library Club finished the first coat on the rest of the shelves and helped dig a ditch for the installation of the electric yard light at the front of the building.

Library Club members Tommy Oliver, James Knabel, Chris Perrin and C. A. Jenkins were joined by James Holt in the painting.

Some 10 or more members of the Library Club are to work at the Library Saturday. Mrs. Joe Youngblood is Club sponsor.

The Forum voted to establish a special fund for memorial and appreciation gifts. Gifts to this fund will be acknowledged and a card will be sent to the family in the case of memorial gifts and to the person, directly, in the case of appreciation gifts.

From this fund books will be purchased and placed in the Library. Also, the practice of memorial books being placed by individuals in the Library will continue.

Other action included approval of placing a suggestion box in the Library. A book wanted placed in the Library or other suggestions concerning the Library may be put into the suggestion box, and, where possible, the Forum will act on these suggestions.

It was announced that Karen Harden McCracken of Corpus Christi, daughter of the late Mrs. Dollie D. Harden, has promised to give a book, a best seller, to the Library each month during 1968.

Agent Urges Top Dress of Nitrogen For Area Wheat

A top dress of nitrogen on wheat should pay dividends after the recent rains, says Jones County Agent Kirby Clayton. The agent says that a soil test is the surest way to determine the amount needed, but if there isn't time for a soil test, 30-40 pounds of nitrogen applied as a top dress should give favorable results on most Jones County soils.

To make sure of the results, Clayton suggest that the farmer leave a plot not fertilized so that the fertilizer response can be calculated at harvest time. Farmers who want a fertilizer yield test calculated should contact the County Agent's office.

Fertilizer should be applied as a top dress when field is dry and when there is no moisture on the wheat plant to eliminate burning of the wheat plant.

SCS Recommends Waterways Set In Grass for Runoff

"Grassed waterways are often the best way to handle excess runoff water on cropland fields," points out Gary A. Batte of the Soil Conservation Service. Recent rains have shown the need for waterways on many farms throughout the district. Uncontrolled water can cause serious damage to crops as well as loss of valuable topsoil.

According to the SCS, the next few months should be a good time for shaping waterways and establishing them to grass. "Due to the recent general rainfall, moisture conditions should be ideal for grass planting this spring," Batte said.

One of the favorite grasses for waterway planting this time of the year is coastal bermudagrass. Coastal does well on most soils in this part of the country where it can get a little extra water, such as on a waterway. It provides a quick cover which is necessary for early protection. It is a permanent grass, says the SCS, and is not likely to die out later on.

After the waterway is built, a lean, firm seedbed should be prepared. The bermudagrass sprigs should be planted at the rate of 24 bushels per acre.

Captain Cook reported finding jade in North America.

Calhoun has filed his candidacy in the Democratic Primary to be held May 4th for the office of State Representative, District 62, Place 2.
District 62-F, which Representative Calhoun now serves, was composed of Haskell, Jones and Taylor Counties and was one of the florid districts abolished by the 60th Legislature. Old Districts 62-F and 61 were combined into a new District 62 with two representatives or places to run at large over Jones and Taylor Counties. Haskell County was placed in District 74 which extends west to include Snyder.
In formally filing for re-election Calhoun said: "My service to this district in the 60th Legislature has further convinced me of the great needs of the people of our state in the fields of public education, industrialization, water resources, tourism and fiscal responsibility. Based on my record I am asking the citizens of District 62 to allow me to represent their interests in the 61st Legislature and to work for them for a greater West Texas.
Representative Calhoun said that he would issue a formal statement in the near future setting out his views and qualifications in greater detail.

Neinda Philosopher Wants to See A Poll On the Public's Popularity With the Politicians

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One proposes a new type of popularity poll this week. We doubt if it'll ever be taken. Dear editor:

People are always talking about politicians and their habit of trying to be on all sides of all questions, how it's hard to pin them down, im-

possible to get a straight yes or no answer out of them, etc., but some recent public opinion polls have brought another angle of the situation to me.

According to two different polls I read in two newspapers last night for example, the President's popularity standing has reversed in two months, going from a low of 31 per cent to a high of 51. At one time it was up to 68 per cent, then dropped to 23, then fluctuated back and forth.

Also, the same thing is shown in polls on other possible candidates, Nixon showing 41 per cent once, then dropping, then gaining, then dropping; Romney showing 38 per cent one time, then changing to 31. And so it goes.

What it looks to me like is that the politicians aren't alone when it comes to wishy-washiness, the public itself has a hard time making up its mind. Why should a politician be expected to take a positive stand on Thursday when the public may take an opposite stand on Friday? A lot of politicians have gone down being wishy on the day the public decided to be wishy.

I'd like to see the pollsters take a poll among the politicians on the popularity ranking of the public.

I can see the headlines now:

Public's Popularity With Johnson Slips Nine Points; Romney Says Public Slides To A Low Of 29; McArthur Says Public At Low Ebb With Him; Regan Says Public Puts TV Ahead of Statesmanship; Senator Dodd Says No Comment.

It would be interesting to see if the public's popularity with the politicians changes as often as the politicians' popularity with the public.

By the way, if you're planning on taking a popularity poll on me, let's change the subject.

Yours faithfully,
J. A.

Now Is Time to Control Mesquite Brush, SCS Says

During the late winter and early spring months is the most desirable time for mechanical control of mesquite brush by using the dozer or root plow, stated Ernest L. Cowger, Soil Conservation Service technician, assisting the California Creek Soil and Water Conservation District. Pastures infested with brush that have very few of the high producing forage grasses, such as, Side Oats Grama, Blue Grama, Switch grass, Vine Mesquite and the bluestems should especially be planned for mechanical brush control so as to provide a seedbed for establishing these grasses during the early spring.

The mesquite brush has invaded most of the range land and has become very expensive for farmers and ranchers that grow native and other perennial grasses. Mesquite brush requires about four times as much water to produce one pound of dry forage as is required by grass and many other plants used for grazing, Cowger stated.

Mesquite trees begin growth in the very early spring and the deep, well established roots take the much needed moisture and plant food from the grasses grazed by livestock. Mesquite roots also reach from 50 to 100 feet into bordering fields of cropland and make these areas unproductive.

One inch of rainfall over one acre of land provides enough water to produce around 500 to 550 pounds of grama grass. Each producer must plan his conservation program for the best use of the rainfall received by growing the most productive forage grasses.

MEN'S CORDUROY JEANS

I don't see how these big shot manufacturers get so high and mighty — all retail prices must be as preticketed etc. Nobody can reduce the price — anyway I'm sure that the only talking that you can understand real good is price — how about taking some of these corduroy jeans preticketed at \$8.00 for

\$4.97

MEN AND BOYS' SWEAT SHIRTS

Flocked Hamlin Pied Pipers — They are as good as ever except "We bought too many" and the kids all wanted windbreakers — Want a few at

\$1.00

JEWELRY

We have a deal with this firm, after our jewelry is here a certain length of time, the salesman comes in and remarks it all

1/2 PRICE

This includes earrings, pins, bracelets, belts, necklaces and just all kinds of jewelry — Want to get the first shot at this?

FIELD AND STREAM JACKETS

All the men have heard of this famous line of jackets — we bought the No. 1 seller in the country — big plaids — of 85% wool and 15% nylon — rayon lined — We didn't sell a coat in the 40 to 46 size range until Christmas. These were then returned after the holidays so we have them left. If you are sport enough to wear the big plaids and big enough to wear a tall in some. How about helping us out on one of these for

\$10.00

BOYS' ALL WEATHER COATS

Honestly the last few days we sold quite a few all weather coats — We had in mind to give you a real bargain in these \$16.95 coats — We have only 3 left — 2 size 12's and 1 size 14 — Take them at

\$8.88

MEN'S JACKETS

The truth is we had these coats in 1966 — They are all bad colors and lousy looking. They were originally priced from \$10.95 to \$12.95 — Would feel very proud if you would take one off our hands for

\$5.00

BOYS' VELOUR SHIRTS

We have about 8 of these reg. \$7.00 boys shirts left. The colors aren't just the very best in the world, what would you expect though for

\$2.00

MEN'S SWEATERS

These medium weight sweaters didn't look good to us the day they arrived. They were priced mostly at around \$10.00. They certainly haven't improved with age.

Now \$5.00

MEN'S TRICOT SHIRTS

Nylon dress shirts in white, green, blue, tan. The shirt says throw away your iron — it might be better to throw away the shirt and keep the iron — anyway the price is right at

\$1.88

THIS IS THE CRAZIEST KIND OF SALE YOU EVER HEARD OF. IT INCLUDES JUST A CONGLOMERATION OF ODDS AND ENDS. SLOW MOVERS, BUYERS MISTAKES AND THINGS YOU WOULDN'T EVEN THINK OF BUYING. IF THE WEATHER IS COLD AND DISAGREEABLE WE ADVISE YOU JUST TO STAY HOME AND PLAY WITH THE KIDS — THERE IS NO USE WASTING YOUR MONEY ON THIS KIND OF MERCHANDISE. IF YOU CAN RAISE THE CASH PLEASE PAY CASH DURING THIS SALE — THEN IF YOU DON'T LIKE WHAT YOU BUY IT'LL JUST BE TOO BAD — ONCE WE GET THE CASH.

LADIES' GO-GO BOOTS

We have 13 pair of these left. 13 is very lucky for you (Could be for us too) If only you would purchase a pair of these Reg. \$6.95 boots from us for

\$1.99

BOYS' CORDUROY FRONT SHIRT JACKETS

Really don't know what kind of description to give these. They come sizes 1 to 4 and were originally priced at \$3.98. We marked them down once but still didn't sell. Guess it will take more description than this to sell these for

\$1.00

BOYS' GREEN SCHOOL JACKETS

How can you Piper rooters refuse to buy one of these reversible school jackets with the past winning season we had. Just talked to the coach and he says that if you ever want to make the team in later years that you should help us out on one of these \$14.95 coats for

\$7.88

Sportswear Sets

After a look at this rack of Bobbie Brooks skirts, slacks, and sweaters you'll probably think that Bobbie Brooks is way off or else Heidenheimer's buyers are "OFF" — Maybe both — If you can stand these, take your choice of these Values to \$10.95 items for

\$2.99

BOYS' SPORT COATS

One small group of boys sport coats that have been with us so long, we've named each one of them just like members of the family — Values to \$12.95 —

Now \$5.00

BATH MAT SETS AND RUGS

When the last customer told me "I believe I will look around a little," I decided that I'd look around a little too and find someone that maybe would take one of these. (Some morning the trash man is going to have a nice surprise otherwise) Originally priced from \$2.98 to \$3.98 — Please help us out for

\$1.99

MEN'S WASHABLE AND STA PREST SLACKS

Don't waste your time looking at these reg. \$8.00 and \$9.00 washable slacks. If you wash them by hand you can't get them clean — If you wash them in a machine with hot water they might shrink. Oh what's the use just save your

\$5.00

LADIES' SUITS

Last fall our business was good and that's when we got reckless and bought too much and too many. Here are suits that won't take any prizes. If you don't think they were a bunch of culls just come and take a look. Just don't say you weren't warned. 25 of these priced originally from \$18.95 to \$49.95

now 1/2 PRICE

MEN'S SHOES

About 21 pair of Jarman and Fortune shoes. Possibly we won't have your size anyway. If you do decide to try on a pair please wear clean socks as they have been tried on so many times all that doesn't look shopworn about them is the box they're in —

\$7.88

MEN'S SUITS

If you want the honest truth about these suits, better not look at them as we simply won't tell you the truth. Broken sizes etc. (We don't charge for alterations though) We have 4 Botany's all with pleats, \$69.95 value for

\$29.95

7 Warren Sewell reg. \$39.95 for

\$19.95

GIRLS' SLIPS

Mrs. Brandon says she is just plain tired of looking at this group of children's slips. I asked her how much we should mark them to try to entice you. She said let's try

79c

WOMEN'S HEEL SHOES

We have had these on sale since just after Christmas at 1/2 price and still have about 100 pairs of high heels left (heavy on "AA" widths). They are shoes that sold up to \$12.95 and really aren't too bad, but the trend is to a little broader shoe so we need to clear them out pronto for

\$3.00

LADIES' WATER REPELLENT COATS

We often call these "trench" coats, but if you wore one in a trench you would probably get soaking wet. We warn you — we have 5 of these left. Don't buy these \$19.95 values for

\$10.00

LADIES' CARCOATS

Only 9 of these left in our supposedly better brand. The only thing better about these we can think of is we had better get them out of the store as you know we have a moth problem. They are reg. \$29.95 coats — Would you help us out for

\$15.00

LADIES' DRESS COATS

Any woman would be foolish to rush right down to buy one of these coats. There is not a bargain in the whole lot. We have one coat regular 129.95 for

\$60.00

5 reg. \$49.95 coats to go out at

\$25.00

About 6 reg \$39.95 coats to go for

\$20.00

Don't bother to look as we probably won't have your size in the color you like.

MEN'S SPORT COATS

Odds and ends from summer and winter — Not a good looking style in the group so better save your money 9 coats that were as high as \$24.95 now

\$10.00

\$1.98

Another group of brushed nylons to go at

\$4.99

WOMEN'S CATALINA SETS

Whether it is Catalina or any set the big problem that we always have is buying just the right amount of jackets, blouses, skirts and slacks and shells. 1/2 PRICE

CHILDREN'S SKIRTS

27 of thee left. Don't bring the daughter along when you buy these as she is sure to turn up her nose at them. Just buy her one and let her suffer from being made fun at.

\$1.00 ea.

BOYS' KNIT CAPS

Even though we had all the cold weather you could ask for, we still have some of these caps left — something must be wrong — take your choice at

1/2 PRICE

and we will get different ones next year.

WOMEN'S Fabric Gloves

For a lady trying to dress up and wanting to get the right accessories we cannot in all justice recommend these fabric gloves — in fact, I don't believe we can recommend them at all — but if you want to buy \$1.98 gloves for

47c

here is your chance.

CHILDREN'S MATCHED Skirt and Coat

We have about 6 of these left in the 7 to 14 range. Nothing good to say about them except good riddance. Originally priced at \$5.99 ea. now

\$2.99 ea.

GRAB BOX

300 to 400 items wrapped and marked — if you could see the stuff you would never buy it — so we put a few sleepers in like a \$1.00 bill for 29c. A \$5.00 gift certificate for 98c — just enough to make it interesting. We all like to take a chance — how about you? Once you open the stuff, it is yours, but I'll tell you this much that it is reduced from 1/2 to 100% from last fall prices — Come early for the best Grabs.

WANTED

One size 42 "Private Eye" type pile lined coat. What we want is for someone to come in and buy this last coat. Reg. price was \$24.95, but regular price has no bearing on the matter. How about parting with

\$12.00?

WOMEN'S DRESSES

Last fall when our buyers were in market buying dresses — the salesman insisted that all styles be shown on models and what a difference that makes. These cuties made us want to buy every dress that was modeled. We went crazy. We didn't know when to stop. Now we have dresses of all descriptions in all sizes for all ages that were \$12.95 to \$29.95. Next season we will sure insist on buying all dresses from the racks. We have one large rack marked

\$6.00

Others 1/2 price or less

WASH CLOTHS

Somehow the towel salesman loaded us with wash cloths from our regular towel sets. If we wanted to buy a dozen wash cloths he insisted they packed them in 2 doz. lots and this is the way we had to buy them. The towels are all gone but wash cloths aren't. How about helping us out on these reg. 39c to 49c values at

4 for \$1.00?

GIRLS' SWEATERS

100% orlons in whites and colors — Maybe it got cold too late, but it's never too late at this price — Values to \$4.98 now

\$2.00

LADIES' KNIT TOPS

These are the most putrid looking things you ever saw. They won't match anything you ever saw. However if you wish to splurge a little we have a couple of dozen of these odds that must go for

\$1.00

MEN'S DESERT BOOTS

Last fall a fast talking salesman sent us a box of candy for Christmas. Along with the candy he wrote us up an order for this dinky looking little boot which was supposed to be very good. Think we sold one pair. Have about 11 pair left for

\$3.99

WOMEN'S BILLFOLDS

Smart looking purses in a big selection of colors fine feather edges and they hold photo cards and even some have removable pass cases. You gals must have spent all your money for Christmas if you don't buy these \$1.98 billfolds for

Political candidates have only a few more days to make up their minds whether they are going to have a share of the action in the slam-bang 1968 races.

Already the governor's column is jammed with impressive Democrats who include former State Rep. Dolph Briscoe Jr., former Atty. Gen. Waggoner Carr, Secretary of State John Hill, former U. S. Deputy Ambassador to Vietnam Eugene M. Locke, radio executive Gordon McLendon, insurance executive Pat O'Daniel and Lt. Gov. Preston Smith.

Briscoe is from Uvalde. Carr and Smith are from Lubbock. Hill is from Houston. Locke, McLendon and O'Daniel are from Dallas.

Republicans promise a candidate or two for governor — maybe three — in their own primary. Already announced is Dallas Attorney John Trice.

While the spotlight will be on the Democratic governor's race in the May 4 primary, there will be action in the lieutenant governor's contest

also where House Speaker Ben Barnes faces opposition from State Rep. Don Gladden of Fort Worth.

Court races have brought forth the following candidates:

FOR SUPREME COURT (Place 1): District Judge Sears McGee of Houston and Associate Justice Matt Davis of the Texarkana Court of Civil Appeals. (Place 2): District Judge Tom Reavely of Austin and Chief Justice James G. Denton of the Amarillo Court of Civil Appeals.

FOR COURT OF CRIMINAL APPEALS: Judge W. A. Morrison, incumbent, and State Attorney Leon Douglas of Austin.

CERTIFICATION PROGRAM MOVES FAST — Texas Animal Health Commission's crash program for brucellosis certification is picking up steam — before a US Department of Agriculture regulation makes it impossible to move cattle from uncertified counties out of state. Only 97 of the State's 254 counties remain to be certified.

554 People Visit With Social Security Officials Here During '67

554 persons, including 73 who filed formal claims for benefits, met with social security representatives, Wayne Baker or Herbert V. Culp, who visited Hamlin 24 times during 1967.

In furnishing the Hamlin Herald with this information, R. R. Tuley, Jr., district manager of the Abilene office, also said that he'd like to make public acknowledgement of the deep appreciation he and his office staff have for the many courtesies and helps given by the Hamlin Board of

City Development personnel. The Board of City Development furnishes free space for the social security representative to meet with the people of this area.

The 1967 Amendments begin to take effect soon, and Tuley urges any who feel they may be affected (other than those already on the rolls who will get their 13% increase automatically) to see Herbert Culp on one of his next Tuesday visits to Hamlin — Jan. 30, February 13, 27 and March 12, 26 at 10 a.m.

Tuley states that the 1967 Amendments have made possible payments to some persons heretofore ineligible for benefits. These are unmarried children of mothers who died up to 20 years ago, insured under social security but with little work in the 3 years just preceding death, and widows aged 50-62 who have been disabled since some date within 7 years of their husbands' deaths or within 7 years of the last check they received for having an entitled child in their care. He added that unfortunately his office had no way of predicting the future so no record was kept on old cases now affected. He hopes that the information furnished above will alert eligible persons to inquire about these possible benefits either for themselves or someone they may know.

In December, the Commission began testing for initial certification in 26 new counties and brought the number in the certification process to 61. To date 36 counties have not started any program.

Federal regulation is expected this year, AHC, in cooperation with USDA animal health authorities, is working toward total certification.

Commission reported that the screwworm epidemic, on the other hand, is well under control. Confirmed cases in Texas dropped from a total of 63 in November to four in December.

INDUSTRIAL AWARD PROPOSED — Until February 5, Texas Industrial Commission is accepting nominations for "The Governor's 1967 Industrial Expansion Award." Nominees should be 1966 manufacturing concerns that expanded in 1967 to the economic benefit of the community at large.

Another point may be won by showing that the nominees contributed to civic and community development in 1967. Award will be presented during the Governor's Conference on Industrial Expansion in Austin's Municipal Auditorium on April 3.

PARKS - WILDLIFE BUDGET — Texas Parks & Wildlife Department is proposing a \$22,000,000 budget for the year beginning Sept. 1, 1968. That would be a \$7,000,000 increase over the current appropriation and would cover renovation of Fort Leaton in Presidio County, McKavett near Menard, Lancaster near Ozona, Griffin near Albany, Concho at San Angelo and Richardson near Jacksboro, as well as \$2,000,000 for wildlife management area land acquisition.

Swiss Skyride In Operation Now At HemisFair '68

HemisFair '68 is off the ground in a big way. The five-story top of the Tower of the Americas is being lifted to the dome of the 622-foot structure, and the Swiss Skyride is in operation.

Both events point to the thing that everyone has begun to believe. The World's Fair is not far away.

With the turn of the New Year, the realization that the April 6 opening was just around the corner became evident. That was when people stopped referring to the \$156 million spectacular as the World's Fair that "will be held next year."

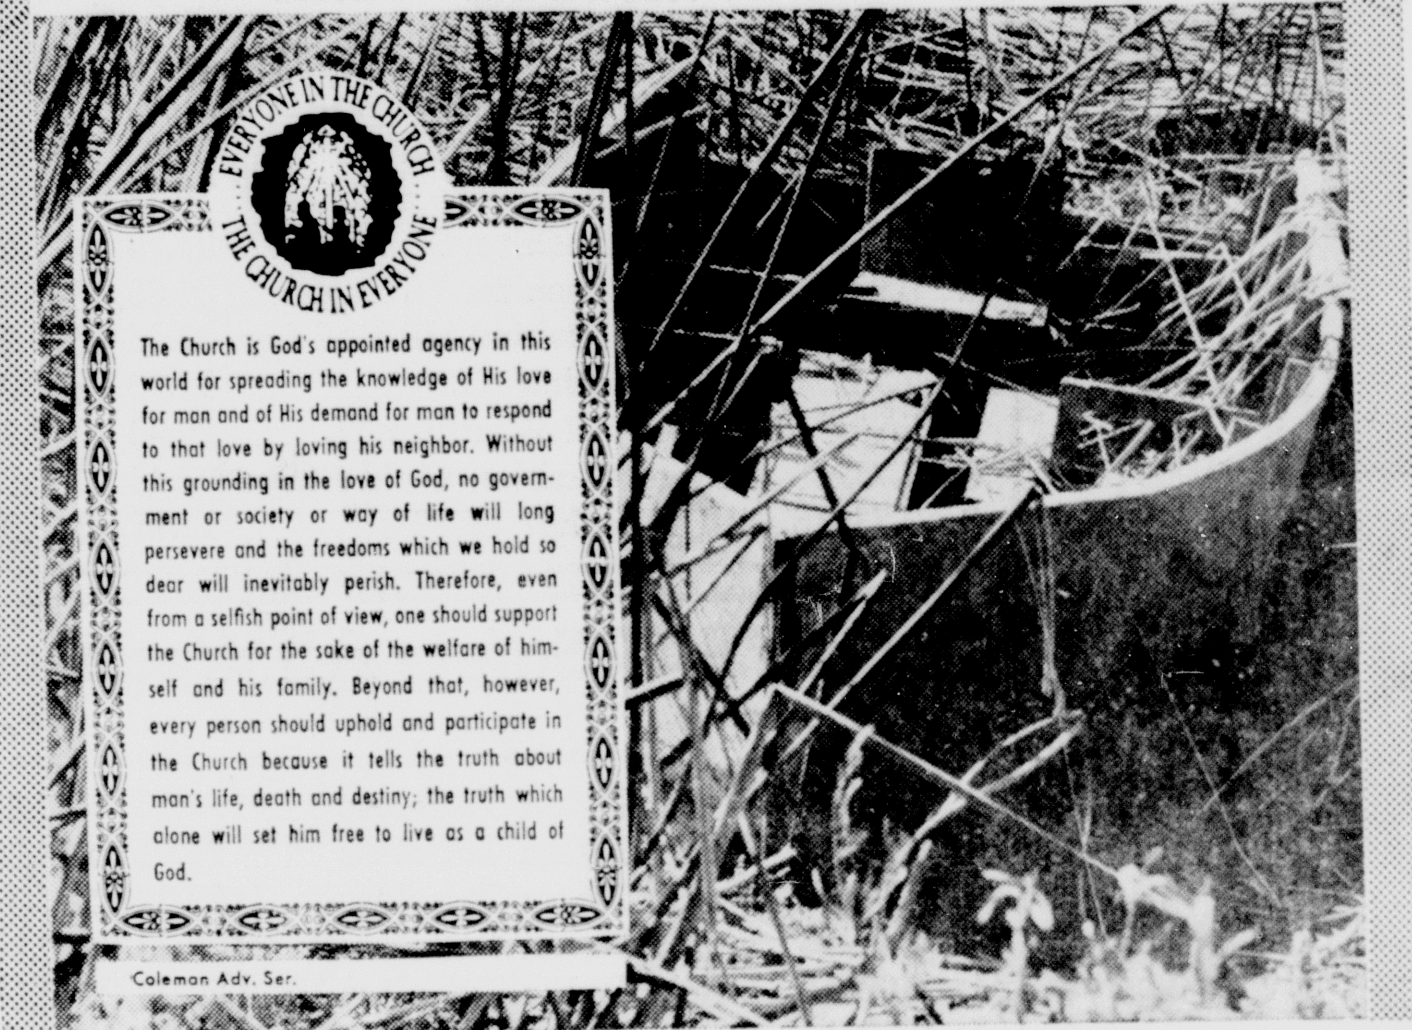

The Swiss Skyride began operation Dec. 23, and met immediate success. A total of 5,700 persons took the 10-minute aerial tour across the grounds during the Christmas weekend alone.

BEACHED... and forgotten!

This old forgotten boat is almost buried in the reeds. Can this boat in any way be compared to our talents? What of these talents that God has given us? Have they been beached, forgotten, buried?

Heaven expects us to help in this matter of creating a better world where brother helps brother by using to the fullest extent the talents He has bestowed upon us. God always provokes and prods mankind to do good works, and accomplish great things. And He says that if we dedicate ourselves to this matter He will help. But the decision to use our talents and develop them is our choice.

Attend church this Sunday and begin to learn how God would have you use these gifts He has given you.
